腾讯北京总部位于北京市上地中关村软件园二期，由两栋独立的建筑组成，其中主楼可容纳约 6500 名员工，主要功能为科研办公和配套服务设施。主楼东侧为能源中心配楼，为主楼提供能源支持。约 33 万 m² 的办公功能整合在主楼中，在单层 28 000m² 的超大平面中，为了解决核心区的采光与通风问题，均匀设置了 6 个庭院：2 个室外庭院，4 个室内庭院。标准层通过环路、斜街、内街划分开散的办公区，形成相对独立的 12 个办公单元。

Tencent Beijing Headquarters is located in phase II of Zhongguancun Software Park, Shangdi District. The main building can accommodate about 6,500 employees,

and the main functions are scientific research offices and ancillary service facilities. The east side of the main building is the ancillary building which major function is to provide the necessary energy for the main building. About 330,000-square-meters of offices are integrated into the most important building. In the large-scale plane which has 28,000 square meters per floor, in order to solve the lighting and ventilation problems in the core area, six courtyards are evenly arranged, including two outdoor courtyards and four indoor courtyards. On the standard floor, the open office area is divided through loops, oblique streets, and inner streets to form a relatively independent 12 office units.
