长泰淀湖观园会所位于昆山淀山湖畔，拥有世外桃源般的自然生态环境。作为一个五星级度假酒店的配套部分。建筑设计强调与大自然的融合，建筑如同展开双臂拥抱淀山湖，拥抱自然。内部功能包括大堂、餐饮、健身、室内外游泳池及SPA等，规划采用多院落组合的庭院式布局。轴线关系无处不在，院落空间层层递进。设计选用粗犷的文化石、质朴的涂料和亲人的木材，营造出一个低调奢华、原汁原味的托斯卡纳风情建筑。

Changtai Dianshan Lake Garden Chamber, located by Dianshan Lake in Kunshan City, has beautiful natural and ecological environment and is a supported project of a five-star holiday hotel which will be planned in the near future. Architectural design emphasizes on the integration with natural landscape to realize an architectural shape opening its arms to hug the Dianshan Lake and natural environment. Internal functions of the chamber consist of lobby, restaurant, fitness, indoor and outdoor swimming pools and SPA and the general planning realizes an integration of multiple courtyards. Axial relation is realized everywhere and diversified courtyard spaces are successfully created. Rough cultural stone, simple coating and moderate timber are used to create a true Tuscany-style building with modest luxury.
