Enter

Enter is an IT college in the town of Sipoo, close to Helsinki. The L-shaped pavilion-like building forms the last corner of an existing school campus.

The urban setting is dominated by two curved yards: a larger one towards the campus garden and a smaller courtyard connected to the main road. The two curved glass façades open up the school towards the community. The students and teachers see the community and are seen. The campus garden serves as learning area, featuring a wireless network and green islands. Fruit trees with white flowers celebrate the graduation in the end of May.

The street-side façade is broken up in smaller volumes to relate to the scale of the surrounding villas. The warm tone of the wooden surfaces is reminiscent of early-20th-century school buildings.

A cast-in site concrete stair forms the centre of action in the building. It is topped by a large conical top light. A small mediathèque and a café in the southern wing open up towards the central lobby. The class rooms are reduced in their material palette into industrial IT workshops.

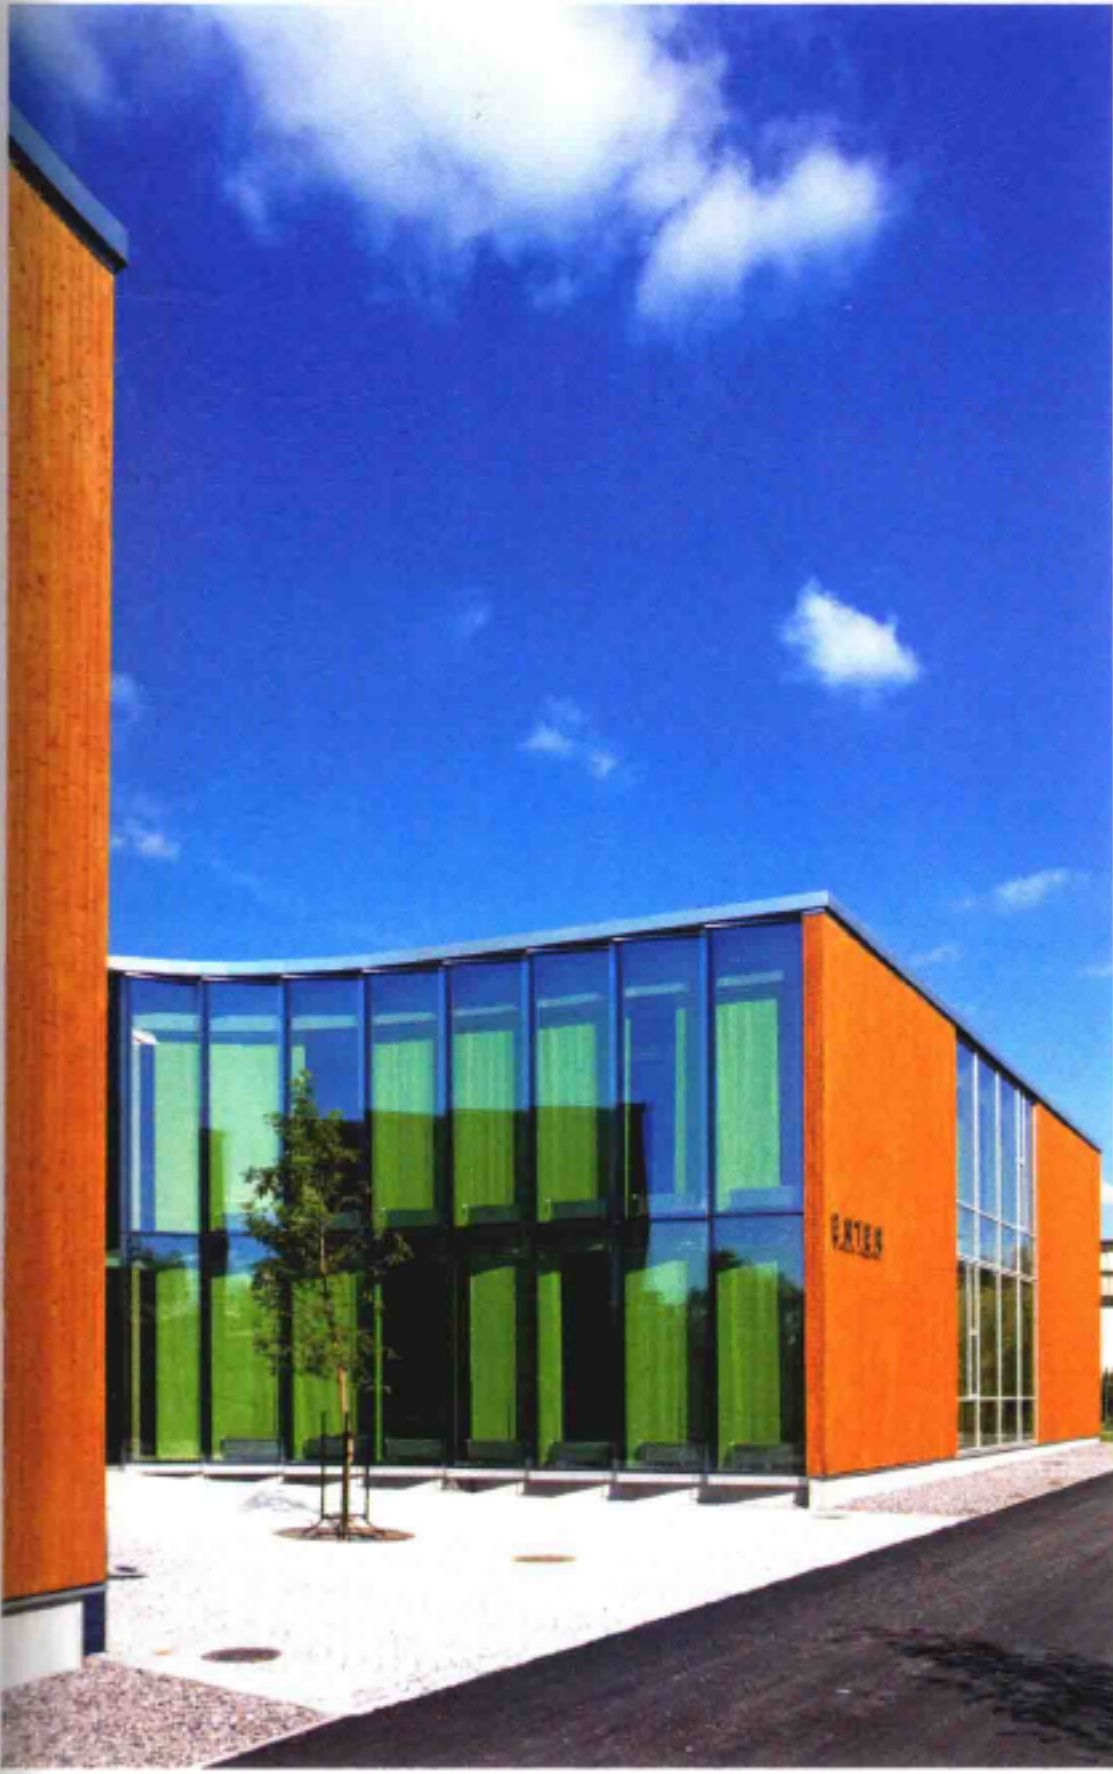

恩特信息技术学校

恩特信息技术学校位于芬兰赫尔辛基附近的Sipoo镇。设计者K2S事务所取得这一项目的设计权。建筑顶部是很大的圆锥形照明设备。木质表面的暖色恰似20世纪早期的学校建筑，混凝土楼梯构成了建筑内部活动的中心。

建筑靠近街道一面的立面分割成小块，与周边的别墅相对应。两座弯曲的庭院起到主导作用——较大的一座向学校花园开放，较小的一座则与主马路连接。花园也是学习区。设置了无线网络和“绿岛”(Green Islands)。五月，果树上白色花朵竞相开放，预示着一个学期的结束。

建筑南侧结构上设置着咖啡厅，朝向中央大厅。教室在设计在材质选择上尽量简单化，如同IT工作室一般。
