The Feng Jicai Literature & Arts Institute, located near the Youth Lake of Tianjin University, covers the building area of approx. 6,000m<sup>2</sup>, with two functions as literature research and art exhibition.

In combination with the campus environment, this design employed the large-scale square courtyard to surround the main buildings and tall trees reserved. It has a regard for the order of campus space, and strives to build a tranquil, deep and serene college atmosphere and artistic conception.

The first floor of the main buildings is overhead, and the man-made water body with an area of about 1,000m<sup>2</sup>, runs across under the first floor, which doesn't only communicate the south courtyard with the north courtyard, but also bring a few of autokinetic effect and vitality for the whole building. Its architectural language is simple and concise. The skillful use of space, environment, structure, material, and the unique treatment of shade and shadow strengthens the harmonious coexist of architecture and nature and the convergence of modern esthetic and traditional artistic conception, and further reflect the literature and art temperament that this institute shall possess, and the transcendent professional emotion of the owner of the building.

馮驥才文學藝術研究院位于天津大學青年湖畔，其功能分為文學研究與藝術展覽兩個主要部分，建築面積約6 000平方米。

設計結合校園環境，以大尺度的方形院落將主體建築及保留的大樹圍建其中，在尊重校園空間秩序的同時，力求圍合出寧靜幽深的書院意境。

院中主體建築首層架空，近千平方米的人工水體貫穿其下，既溝通了南北庭院，也為整座建築帶來了些許的靈動與生機。建築語言質樸簡約，利用空間、環境、結構、材料及光影的獨特處理，強化了建築與自然的和諧共生及當代審美與傳統意境的融匯，近而傳遞出該學院應有的文學藝術氣質及建築物主人超然的職業情懷。
