

# TIANJIN DRAGON VALLEY CULTURAL CITY CHAMBER

## 天津盘龙谷文化城会所

用地面积  
2 500平方米

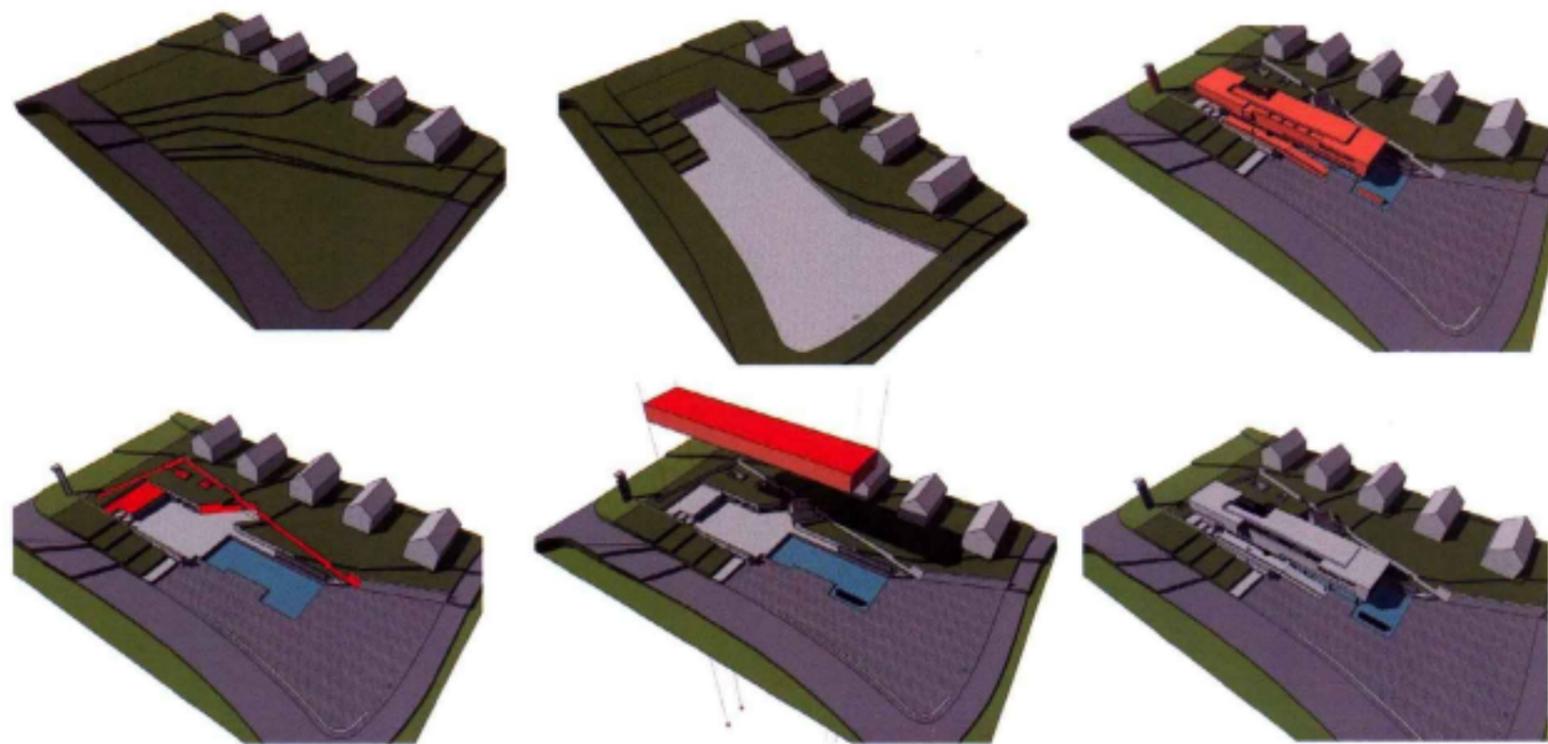

建筑面积  
1 800平方米

设计时间  
2009年12月

建筑类型  
商业金融

盘龙谷文化城会所兼作天津市蓟县盘龙谷星梦工坊的售楼处，建筑师试图去探寻售楼处的本质，从世俗和艺术两种层面上刻画建筑。在这里有两条流线，一条是在人为引导下，经过四个主要场景最终以达成销售为目的的流线，这条流线的空间场所曲折变化，为营造销售氛围而造。另一条流线是自由的，带有文艺气质的，它游走于景观和建筑之间，有着相当的不确定性，建筑师通过景观与建筑的结合塑造了无数变化的场所。建筑参与景观构成，景观参与建筑流线，二者共同塑造建筑空间。

Dragon Valley Cultural City Chamber is also used as sales building in Tianjin City. Architects try to find the essential function of sales building and define the building in two viewpoints: public and artistic. There are two streamlines, one of which uses artificial elements to guide customers passing through four main locations and to sell the building, and is curved according to spatial conditions and is created to generate a selling atmosphere; another streamline possesses freedom and cultural characteristics and stands between landscape and building, having high uncertainty. Architects create numerous variable locations through integration of landscape and building. Therefore, building also becomes a landscape element and landscape defines building profile. They jointly create the architectural space.
