

DAQING HIGH-TECH ZONE FINANCIAL PARK

大庆高新区金融产业园项目

用地面积	建筑面积	设计时间	建筑类型
25.52万平方米	62.59万平方米	2011年11月至今	超高层

大庆高新区金融产业园项目位于大庆市龙凤区心脏地带，以办公、星级酒店、银行、商务楼为主，辅以高档公馆社区。规划方案以一条中轴线主导了地块全局，同时结合外向性的景色优美的市政公园，奠定超高层塔楼的核心位置，并且通过设置内向性的中心公园，将高档公馆社区与商办区域自然分开，同时又共享其独特景观。整体规划在城市中展现出现代尖端独特的金融商务区的气质风貌。

超高层双塔高度为216米，建成后将成为黑龙江省最高的双塔建筑。建筑外墙表皮形似鳞片的效果，通过顶部肌理与尺度的微妙变化来实现整体比例的均衡，创造出简洁但优雅的城市地标。

Daqing High-Tech Zone Financial Park, located at the heartland of Longfeng District of Daqing City, is mainly composed of offices, five-star hotel, bank and business buildings and is supported by high-end residential community. According to the planning scheme, a piece of axial line passing through the whole site and municipal park providing extroverted and beautiful landscape emphasized the core position of the skyscraper tower. Introvert central park is designed to naturally separate the high-end residential community from business area, while providing unique landscape to both areas. The general planning shows unique and sophisticated characteristics of modern financial business zone.

The super-high twin towers are 216m high and will be the highest buildings in Heilongjiang Province after completion. Buildings adopt scalelike facades and realize balanced proportion through subtle variation of top texture and scale, so as to create a simple but elegant urban landmark.
